The co-coordinators meet in Glasgow on June the 7th and 8th..

The professional work is a prior activity among the partners in these days, and the need to see each other and discuss is crucial. All partners will deliver different «products» related to the Work Packages on the 1st of June and during the following month (See *Member Area* and the *Results* from the different countries). Afterwards the norwegian Project Team will start the work with the Final Report. The final joint meeting is planned to take part in Aarhus in Denmark on September the 24th and the 25th.
