After the last joint meeting in Aarhus on September the 24th and 25th the partners have one common job left: to fulfil the final reports.

In the meeting in Aarhus the partners settled the last steps of the project proses. In formal there will be no more meetings because the project period ended on September the 30th. During this autumn the Project Team will focus on the Final report and the Professional Report. This work will be finished at the end of the year, and by no means later than the 29th of February 2008.
