

The project is over...

Author: Terje Lønnebakke<terje.lonnebakke@t-fk.no>

The project period was at its end on September the 31st 2007.

The last partner meeting in Aarhus, Denmark, became a combination of professional summing up, gratitude for a memorable co-operation and a last farewell. After the meeting the contractor was in charge to fulfill the last formal tasks: write the Handbook and the Final Report including the Financial Report. If you are a partner or have access to the member area you may find the Final Report including the Financial in this area (Dissemination, Economy and Evaluation areas). You can find The Handbook and its attachmants in the *Project* area called *Reports*.
